

## How to build a real business online

Yesterday I spoke with my mentor Greg about how to build online business. Actually my questions were more about how to make money online faster and why traffic saucers I use do not give me results I expect. Greg gave me this answer, Gennadiy, listen to me and try to realize what I say: **SLOW IS FAST.**

### SLOW IS FAST?

He also said: "Gena, before you even start spending money on any of your online business ideas, you must have structure (how all business formula works) in mind. If you do not have a structure, including step by step guidance from someone who has already made those millions online - you will be doing a lot of work, spending a lot of money on traffic and having the same zero results."

### You have to be focused

It is true. Doing your first step in online business you have to be focused on what your mentor asks you to do - slow is fast - do not try to make money faster then you will be able to build your online business using proven formula. Here is what you should be focused on.

# How to stay focused when building your first business online.

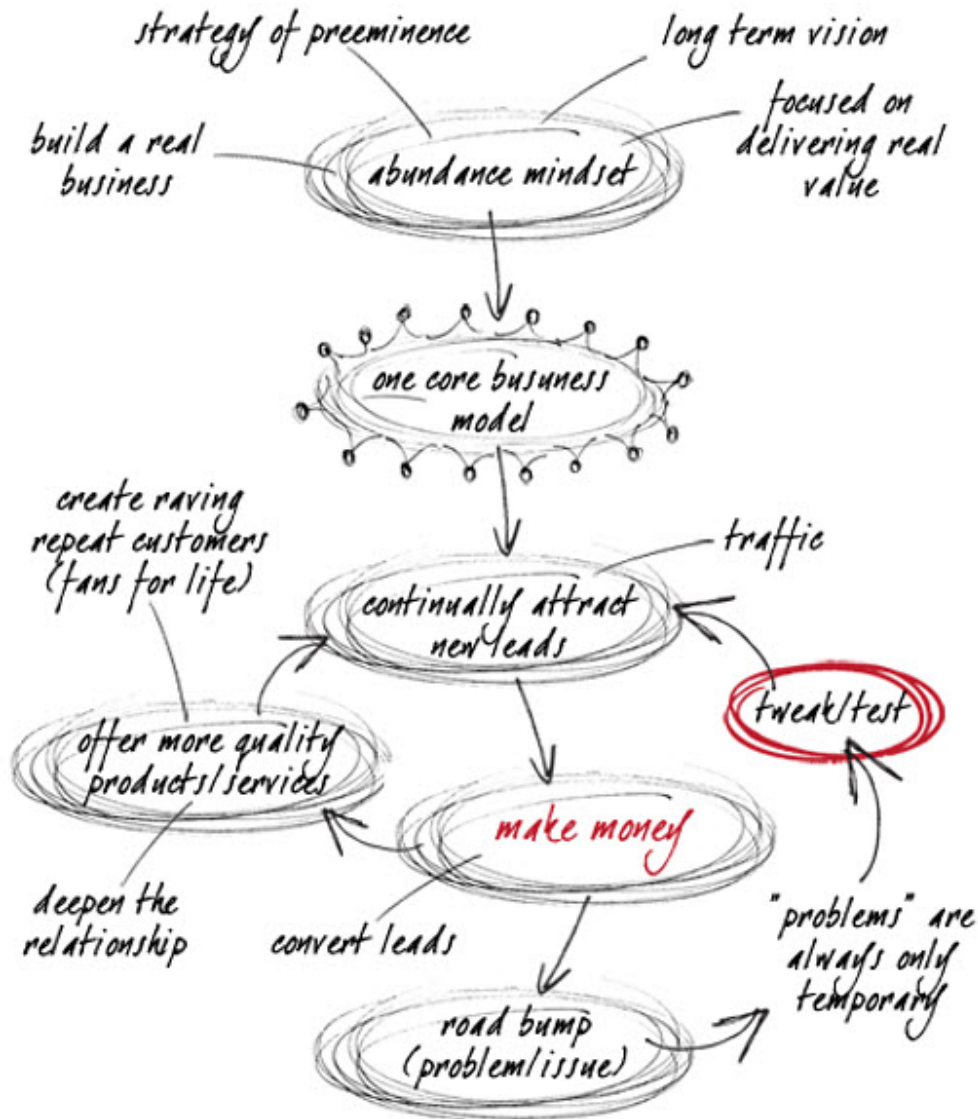

The road you will face ahead is not easy. Hell no. It requires a **discipline and determination**.

- Stay focused on creating value for your audience.
- Provide tangible solutions for real problems worth solving.
- Be all around of your audience.
- **You should have a customer- centric approach to your business** ([Zappos](#) being a example)

## Building a business is a process, not an event
