But how do they make money if they're not selling anything?

I'm going to give you the secret - I'm going to show you how **you can steal their billion dollar business model** and use it to make money just like they do. But first - let me explain how it works - you see, behind their websites **Google and Facebook they are actually selling advertising to business owners.** They're taking advantage of the millions of people who come to Google and Facebook and click the advertisements on their pages. buyers who buy their products. That's how they make money - when you have an online business more traffic equals more money and most online business owners wake up every morning with a burning desire to get more traffic to their websites.

When you have an online business more traffic equals more money

People are constantly searching for new premium traffic methods and systems as well as tools and training so they can **generate more leads and make more sales** at a faster pace. So what if you could provide them with the traffic tools and the training they are looking for and what if you got paid anywhere from 20 bucks 50 bucks a hundred bucks all the way up to a thousand two thousand even four thousand dollars per sale, depending on what traffic products they need. Then when they keep coming back for more traffic you're gonna get paid over and over again - are you beginning to see how powerful this really is? You can make money just like Google and Facebook make money and you can do it without thousands of employees in all the headaches that would come with them, without millions of dollars in office space overhead and expenses without knowing the first thing about computer skills or technical knowledge without hiring and dealing with coders and programmers marketing departments and without spending a frustrating fortune that you most likely don't have to begin with.

Just imagine for a moment what making great consistent income online could mean in your life? Maybe a new car or a nice family vacation or just the freedom of not having to live paycheck to paycheck worrying about how you're going to pay the bills. Trust me, I know where you are now because I've been there before and I want to give you a real solution that can help you make money online, without investing the time and money normally associated with starting a business.

today and deposits will be made straight into your bank account. Some people will earn thousands of dollars in just a few weeks some will even earn a five figure payday in the first month. How do I know? Because it's already happened this is something extremely powerful I can't believe what's happening. I've only been in the program for a couple months and I'm getting some pretty fantastic results - here's my recent recent check. I don't know if you can see that or not but it's \$11,000 - over \$11,000 for one week in this program - one week's effort this business of a load mean to be on the beach with their children. They're playing in the water when I receive a text message from our company - I look down on my phone and it says - you've just received a commission of \$200! I'm like are you kidding me I'm on the beach with the kids playing flipping and flopping and I'm earning money for work that I did already that is so amazing.

What people say?

now

Listen, with just a few clicks of your mouse and in probably 20 maybe 30 minutes or less, you will be ready to go - you'll have a fully functional online business that can start generating sales today, making money for you with the hottest high demand traffic products online. Right now you're probably asking yourself what the heck is this going to cost - can I even afford it? Well, let me answer that by asking you this - would you consider what it would cost to do all of this stuff by yourself? Let's talk about some of the numbers and I'm going to be conservative - here first of all you would have to design and build your online sales funnels - that means website designers, programmers, hosting copywriters, video producers... Let's say that cost you 40 thousand dollars on the low end, then you have to create the products so you have something to sell. If you could come up with products like the traffic packages, traffic optimizer and traffic Academy those would easily cost somewhere in the neighborhood of \$50,000 to develop and get ready to bring to the market. Then you would have to test the market - let's say ten thousand dollars for your initial test marketing so add this up forty thousand plus fifty thousand, plus ten thousand dollars - that's around a hundred grand to get a business like this developed and launched, not to mention a solid year or so to pull it together. You're still not even sure if it's going to work out or not? Maybe you've tried to do it on your own, so you know what I'm talking about, tens of thousands of dollars along with the months or even years of hard work and you still wind up with having to rely on luck hit and miss and learning from your mistakes. Now let's talk about traffic Authority you're ready to go done for you online business, your products are tested proven and in high demand, your marketing funnels have been tested and they are proven to be very effective, your Commission's are huge up to one thousand, two thousand, even four thousand dollars per sale and those continue month after month year after year. And there is no selling to do, there's nothing technical to learn, there's absolutely no hard work or worrying - am I doing this right... You follow these simple steps and you are in business - so what is this all really going to cost you?

So what is this all really going to cost you?

Fortunately, you won't have to spend anywhere near one hundred thousand dollars or even ten thousand dollars or even five thousand dollars... You know, a couple of my buddies internet millionaires, that I respect a great deal - they suggest, that I charge as much as one thousand nine hundred and ninety seven dollars for traffic Authority and, honestly, I almost did. However, I thought about it over a weekend and I decided - I wanted to make sure, that no one is left behind, while our doors are still open. So, rather than charge nineteen ninety seven or even \$997 or even four hundred and ninety seven dollars, I decided that, if you are serious and you really want to change your life today, I will personally make an investment in your business. Our initial test group - they paid ninety seven dollars a month to get access to this system and they were blown away by the amount of money they made. But, because I want you to get started without having to pay a cent, I'm going to give you a massive discount - totally risk-free guaranteed. If you are one of the first 500 people to sign up today, you can get started with traffic Authority for only \$17 a month.
