

Facebook traffic blueprint for drop shipping funnels.

You have to make a new Facebook FUN Page for each niche - when you make your first funnel in the niche. Period.

Step 1. Create a Fun Page

If you make multiple funnels in the same niche, you can use the same page over and over again. You can get needed images to reflect your niche Fun Page on Google - just search for 'free stock images.'

Sites that offer free stock images:

- **pexels.com**
- **pixabay.com**
- **gratisography.com**
- **picjumbo.com**

Mage Omega

Step 2. Create a post

Next we create a post with link (using URL Shortener like <https://goo.gl/>) to our sales page - like this for example.

Ad Copy 1
(asks a question)

Would You Wear This?
Tag A Friend who would love this!

Boost Post

Page Post Engagement - Ad/ Boosted Post

Most of your staff is going to fail, guys. But it is ok - this is why we must test a lot of products until we find a winning product and then we have to focus on promoting and selling of this winning product for a long time (like couple of months at least). This is how this game works. Period.

We will use for testing so called PPE - Page Post Engagement Ad (or Boosted Post). We will use small budget like \$5 to \$10 to find out where our staff working or not.

Marketing is a game of patience - so be patient when testing your products!

Creating first PPE Facebook AD

1. **Creating your audience in Ads Manager - look for around 500 000 to 3 000 000 broad.**
2. **In Placements - we need only Facebook News Feed.**
3. **Platform : All Devices (Mobile + Desktop)**
4. **Daily budget - \$5.0 for 2 days (after first day we gonna see it and analyze and if it is a total disaster, we gonna kill it)**

How to find Winning Products? The Secret is Reverse Engineering!

To Find winning product for drop shipping we do not have to reinvent the wheel.

The product that made on of my friend \$200 000 in sales ...over 20 other stores are selling it

on Facebook and another 50 stores on Amazon...

So I would rather jump on a trend and not try to create a new trend by myself.

How to Find Winning Product - The Secret is Reverse Engineering
