Watch what people say about us and our system!

But First also watch this video from Nicole Cook - watch her quick testimonial for my dot-com business Franchise Business! " I'm a brand new member in just a month and a half I have already earned over thirteen hundred dollars in commissions [just from Pro sales alone.](#)

What is PRO Sales? PRO is our [low ticket front-end offer \(\\$77\)](#) which has been really really consistent and that's what I was looking for in a business - I needed something that the long term and will be sustainable. And then last weekend I just made \$9000 dollars in sales in just two days. But the best part is I didn't have to upsell anything - **the coaches did that for me behind the scenes.** Two of those sales were completely unexpected so I woke up to them I didn't have to do any extra work - the coaches really do the hard work for us all! Also I'm doing this part-time - I have another passion I'm pursuing offline as well, so you know I haven't put as much time into this as I've wanted to and I've already had that those great results in a short period of time! So anybody can really do this, no matter what if you're working full time, you know, if you're doing this full-time or part-time - it's something everybody can do. Why? Because **you have that leverage and you have that automation through the system and through the coaches.** I'm also just using free Facebook marketing strategy so far - I haven't done any paid ads, I didn't have this big email list, I am not a big marketing guru - I'm just a regular person. So, you know, the future is just gonna be amazing once I can start scaling my business up and start getting into paid ads later on. But I just wanted to share that with you guys - I wanted to give a shout out to Paula Lynn - he's the owner all the coaches Maria - David's Martin everybody on the my.com business team - you guys are awesome and I can't wait to meet you in person in the UK. And if you any of you are sitting on the sidelines you want to jump in right away you don't want to wait there's really nothing to lose and we're all on the other side ready to cheer you on and watch you succeed so I will see you on the other side thank you!"
