Dan, This is "THE BOMB." You have done it again. Congratulations on this software. This is really awesome but that's what you always crank out, my friend. Great software that we can sink our teeth into and really go to work.

I really love this plug-in and you know you're right. Getting content can be very overwhelming for a lot of people because there is so much involved, but it's like anything else. Everything takes time and we all have the same number of hours in a day so we need to put them to good use.

WP Auto Ranker is truly amazing and will make all those hours, we have in a day, so much more productive. You have a great search function. It generates automatic content for you, lets you spin it to make it 100% unique and its all fully human readable.

This is a tremendous plug-in and will totally change the way bloggers get original content while getting a page 1 ranking in the search engines all at the same time. I LOVE it !!!
